

Instructions

LAYOUT

On a sturdy work surface, gently lay out your tools on the ToolLodge the way you want them in the drawer.

Leave a 1" margin around the edges.

Avoid dropping tools on the organizer as this can dent the surface.

GRIP TOOL

Use the included grip tool to make adjacent indentations for easier access to tools.

MAKE PERMANENT IMPRESSIONS

Press each tool into place by applying firm pressure to make permanent impressions.

Tap the tool with a hammer to make deeper impressions.

Larger tools may require pressing/tapping one end of a tool at a time.

When complete, remove tools and install into drawer.
